## Summary

Full-Stack Developer with Strong DevOps Expertise | 7+ Years of Experience in Web Mobile App Development, Large System Architecture, and Microservices Design Configuration. Proficient in a Wide Range of Tools and Frameworks. Passionate about Creating Innovative and User-Centered Designs, Developing Custom Software Solutions, and Ensuring Seamless Deployment and Operations. Committed to Staying Up-to-Date with the Latest Technologies and Best Practices to Deliver High-Quality Results. Let's Connect and Discuss How I Can Help You Achieve Your Business Goals.

## Skills

**Languages :** JavaScript , PHP , Python , C/C++ , SQL , Dart

**Technology :** Nodejs , Express , Nestjs , Reactjs , Redux , React Native , Angular , Vuejs , Socket , Nextjs , TypeScript

**Database :** MongoDB , DynamoDB , Firebase , Mysql , Postgresql , Sqlite

**Platform :** Aws , Azure portal , Docker , Heroku , Digital ocean , Windows , MacOS , Linux , Android , Ios

## Work Experience

### EkkBaz.

*Sunview Road Singapore*

SENIOR SOFTWARE ENGINEER

*Jan. 2022 - Continue*

- At Ekkbaz, I had the opportunity to work with Microservices architecture design and development logic implementation, where I played a key role in building fully customized EkkBusiness, EkkStock, EkkInventory, Web, and Mobile Apps.
- My expertise in implementing several Microservices API in Node.js Express, Nest.js, MongoDB, and Postgresql helped to enhance the scalability and performance of the applications. I was responsible for designing and developing logic implementation, ensuring the apps were user-friendly, scalable, and functional.
- Throughout the project, I collaborated closely with cross-functional teams, including designers, product managers, and QA analysts, to ensure seamless integration and delivery of the final product. My role also involved technical troubleshooting, debugging, and software documentation to provide a high-quality end product.
- Overall, my experience at Ekkbaz has equipped me with valuable skills in Microservices architecture, Node.js Express, Nest.js, MongoDB, and Postgresql, as well as collaborative leadership, teamwork, and technical troubleshooting.

### Fifty two digital., Ltd.

*Nikunja 1*

SENIOR SOFTWARE ENGINEER

*July. 2021 - December*

- During my time at Fiftytwo Digital Ltd., I worked on various e-commerce projects, where I was responsible for designing and customizing the architecture, as well as implementing the development logic. I built fully automated CI/CD pipelines on AWS EC2 and Rancher, which helped streamline the development and deployment process.
- One of my key accomplishments was implementing several APIs using Node.js Express and in the serverless AWS Lambda functions and DynamoDB, which enabled faster and more efficient data processing. Through my expertise in serverless architecture and API development, I was able to improve the overall performance and scalability of the applications.
- In addition, I collaborated with cross-functional teams to ensure the successful delivery of projects within tight timelines. My ability to troubleshoot complex technical issues and provide effective solutions played a critical role in meeting business objectives. Overall, my experience at Fiftytwo Digital Ltd. allowed me to gain valuable skills in e-commerce architecture design, development, and deployment on AWS, while working on projects with a strong focus on performance and scalability.

### Sonali Information technology Ltd

*Mohammadpur dhaka*

SENIOR SOFTWARE DEVELOPER

*Feb. 2018 - May. 2021*

- During my tenure at Sonali Information Technology LTD, I served as a Sr Web Developer and Systems Architect, responsible for designing several high-traffic custom e-commerce websites. I utilized a diverse tech stack, including JavaScript, React, Angular, Vue.js, React Native, Node.js, MySQL, MongoDB, and Firebase, to deliver innovative and user-centric solutions.
- In addition to website development, I structured internal systems for order entry/management, conversion/revenue reporting, and production workflow tracking. I also designed custom REST APIs using Laravel PHP and Node.js, enhancing the functionality and performance of the applications.
- Furthermore, I successfully installed Linux servers and created virtualized environments using Docker, and Amazon Web Services. My expertise in server administration and infrastructure management contributed to seamless operations and scalability.
- One of my notable achievements includes the design and implementation of a PHP web application, optimizing resource configuration and allocation for high-server traffic.
- Through my role, I consistently demonstrated proficiency in full-stack development, systems architecture, and infrastructure management, driving business growth and ensuring client satisfaction. display point list

## Aliflaila E-commerce Agency (Remote)

UK

SOFTWARE ENGINEER

Jan. 2017 - Jan. 2018

- During my time at Aliflaila E-Commerce Agency in the UK (working remotely), I served as a web developer and systems architect, responsible for designing and developing custom e-commerce websites and Laravel frameworks. I utilized HTML5, CSS3/SASS, JavaScript/React, MySQL, and Node.js to deliver innovative and user-friendly solutions.
- As a software engineer, I contributed my expertise in the development of products through the software lifecycle, from requirements definition to successful deployment. I encouraged the adoption of emerging standards for software application development architecture and tools, facilitating customization of systems.
- My ability to excel in rapid application development and manage technological issues for assigned projects earned me the highest customer satisfaction rating for all software solutions delivered. I introduced methodologies and best practices that enhanced product definition, release processes, and customization of applications to meet user needs.
- Through my role, I consistently demonstrated proficiency in software engineering, project management, and customer satisfaction, driving business growth and ensuring client satisfaction.

## ZNZ Solutions

Mohakhali Dhaka

WEB DEVELOPER

Jun. 2014 - Jan. 2017

- Developed and delivered high-end website solutions to a diverse client base by utilizing wide-ranging technologies and frameworks.
- Successfully generated back-end programming utilizing LAMP stack; Linux (CentOS 5/Redhat), Apache PHP 5, CSS, JavaScript/JQuery, and MySQL larvae, WordPress, CMS and frameworks.
- 

## Education

---

B.S. IN COMPUTER SCIENCE AND ENGINEERING FROM (ADUST) ATISH DIPANKAR UNIVERSITY OF SCIENCE AND TECHNOLOGY

(2016)

- Diploma Computer Science from (SIPI) Shyamoli Ideal Polytechnic Institute (2011)
- Secondary School Certificate (SSC) Jamshedpur High School(2006)
